Citywide Banks Offers Online Access for International Wire Transfers

Citywide Banks announces a technology upgrade that allows customers doing business across the globe to initiate wire transfers online, from their own PC. A new partnership with Travelex – the world’s largest non-bank provider of global payments, is making it possible for Citywide Banks to offer this customer convenience.

According to Nancy O’Shields, Vice President of Cash Management for Citywide, “We are experiencing an increase in demand for cash management tools which simplify the banking process for our customers. As always, our goal is to help businesses get the job done quickly and cost efficiently.”

Online International Wires access will allow Citywide Banks customers to settle payments with suppliers across the globe in foreign currency, which reduces costs and eliminates potential exchange rate problems.

Locally owned and operated, Citywide Banks has been serving the Denver business community for more than 40 years. Specializing in value-added service, Citywide has over 260 employees providing commercial credit, and cash management products through 14 branch locations across the metro area.
